- Obtained the Ontario Secondary School Diploma in a French curriculum school.
- Completed SHSM program: Specialist High Skills Major in Health & Wellness.

## ADDITIONAL LEARNING

### Coding Bootcamps, Udemy

#### “React - The Complete Guide 2025” - 51.5 Hours - [link](#)

- Built scalable React 19 applications using Hooks, Context API, Redux Toolkit, and React Router.
- Developed full-stack apps with Next.js App Router and React Server Components.
- Implemented forms, authentication, API integration, animations, and unit testing.
- Applied modern React best practices, performance optimizations, and deployment workflows.

#### “100 Days of Python” - 46.5 Hours - [link](#)

- Python 3 development across automation, web, data science, and desktop applications.
- Flask, REST APIs, SQL databases (SQLite, PostgreSQL), and authentication.
- Web scraping & automation (Selenium, BeautifulSoup, Requests).
- Data analysis & visualization (Pandas, NumPy, Matplotlib, Plotly).

## EXPERIENCE

### **Town of Bradford West Gwillimbury— Camp Counsellor**

July - Aug, 2023 to 2025

- Designed and facilitated daily educational activities (crafts, games, team-building exercises) for groups of 30+ campers aged 4 to 8, fostering creativity, teamwork, and fundamental skill development.
- Resolved conflicts and promoted inclusivity by mediating disagreements among campers and implementing behaviour management strategies to ensure a safe and welcoming environment.
- Collaborated with parents and staff: Communicated daily updates to caretakers and parents, addressed concerns, and partnered with colleagues to optimize camp procedures and workflows.
- Worked at special town events: Canada Day Celebrations and Carrot Fest, developing customer service and communication skills.

### **Food Basics, Bradford — Meat Associate**

Jan 2023 - May 2023

- Delivered customer service: Assisted shoppers with product inquiries, recommendations, and special requests, promoting a positive shopping experience.
- Collaborated with team members: Supported efficient workflow during peak hours to meet departmental goals and maintain organized displays.

## PERSONAL PROJECTS

### **Shopping store**

ReactJS Front-End Project - [Link](#)

An art gallery store web application

- Utilized React concepts: hooks, encapsulation/modulisation, module styling, and a CRUD mock database.
- Developed elementary Tailwind CSS abilities.

### **Restaurant Review App**

ASP.NET MVC core solution - [Link](#)

A restaurant review application, where users can rate a restaurant.

- Implementing a Payment Gateway using Stripe.
- Role implementation via authentication and authorization.
- Create-Read-Edit-Delete (CRUD) implementation of a database.

## VOLUNTEER

### **VP Communications, Student Council — Georgian College Residence, Barrie**

Sep 2024 - Dec 2024

- Spearheaded the proposal, planning, and execution of events for student residents.
- Established and maintained clear communication channels between students and upper management.
- Conducted weekly meetings with student groups to address needs and provide updates.
